

# **Warning – Arrow Saw Use**

## **Safety Instruction Notice**

- **Eye Protection Must be Used**
- **There are no exceptions, eye protection must be used.**
- **Safety Glasses are in the cupboard.**
- **Do not use the arrow saw until you have had instruction on the correct use of the arrow saw.**
- **The manufacturer has warned that the rotating blade may explode.....so when using ensure you use personal protection equipment, stand well clear of the line of the blade, and make sure that there is no one else in the workshop and bench area.**
- **Always use a dust mask and turn on the exhaust dust extraction**
- **Place cut pieces in disposal**
- **Be careful with handling cut pieces and ensure you do not get splinters, as in particular carbon arrow manufacturers have advised that carbon shards can be dangerous and splinters need medical attention**
