Matters arising – proposed disability access grant

The proposed grant application currently includes access pathways, additional shade, gravel surfaces and turf.

A member noted that under the proposed arrangement there are potential negative aesthetics with the rear shade sail due to the potential extension works of the east shed. The extension works are very likely to go ahead, although timing of funding is unknown.

Alternative proposal is to remove the rear sails on the midfield and construct 9 new shade bays (three on the beginners and six on the midfield). It was noted that additional shade on the beginners line is also advantageous for other coaching sessions like the AA RDP and Compound Squad.

Addition to the scope - concrete pathway from the DOS box down to the 70m line, beyond the posts.

Motion to access revised scope
moved by Brian Hagaman, seconded Craig Glasby
Carried
